## **Informed Consent for Chiropractic Manipulation and Treatment**

As with any healthcare procedure there are certain complications which may arise during the course of chiropractic manipulation and ancillary therapy such as hot or cold packs, electric muscle stimulation, laser therapy, micro-stimulation, traction, therapeutic ultrasound, and non-surgical spinal decompression. Dr. Friedman is required to advise her patients that there are risks associated with such treatments.

**The nature of chiropractic treatment:** The doctor will use her hands or a mechanical device (known as an Activator instrument) to move your joints, known as chiropractic manipulation. With manual adjustments you may feel a "click or "pop", such as the noise when a knuckle is "cracked". You may or may not feel movement of the joint. Some patients may experience soreness/tenderness/stiffness following the first few days of treatment which are more common when beginning care vs. ongoing treatment.

**Possible Risks:** Complications may include fractures of the bone, muscular strain, ligamentous sprain, dislocations of the joints, or injury to intervertebral discs, nerves, or spinal cord. An exceptionally rare cerebrovascular injury or stroke could occur upon severe injury to arteries of the neck or more rarely dislodged if you are predisposed to blood clots. Ancillary therapeutic procedures could produce skin irritation, bruising, burns or minor abrasions.

**Probability of risks occurring:** The risks of complications due to chiropractic treatment (manipulation and ancillary procedures) have been described as "rare". The risk of cerebrovascular injury or stroke has been estimated at one to one in twenty million and can be even further reduced by screening procedures. The doctor will make every appropriate effort to screen for contraindications to care; however, I know it is my responsibility to inform the doctor of any conditions that are not obvious from my intake forms or physical findings upon my examination. Significant high blood pressure and A-Fib already predispose patients to stroke, regardless of manipulation. Underlying diseases such as cancer or osteoporosis could lead to more risk of fractures.

**Other treatment options which could be considered** may include the following:

- *Over-the-counter analgesics.* The risk of these medications include irritation to stomach, liver and kidneys, and other side effects in a significant number of cases.
- *Medical care,* typically anti-inflammatory drugs, tranquilizers, and analgesics. Risks of these drugs include a multitude of undesirable side effects and patient dependence in a significant number of cases.
- *Hospitalization* in conjunction with medical care adds risk of exposure to virulent communicable disease in significant number of cases.
- *Surgery* in conjunction with medical care adds the risk of adverse reaction to anesthesia, as well as and extended convalescent period in a significant number of cases.

**Risk of remaining untreated:** Delay of treatment allows formation of adhesions, scar tissue, and other degenerative changes. These changes can further reduce skeletal mobility and induce chronic pain cycles. It is quite probable that delay of treatment will complicate the condition and make future rehabilitation more difficult.

**Unusual risks:** I understand that the doctor will verbally acknowledge any unusual risks I may pose to manipulation.

**I have read the explanation above of chiropractic treatment. I have had the opportunity to have any questions answered to my satisfaction. I have fully evaluated the risks and benefits of undergoing treatment. I consent to undergo the recommended treatment as recommended by the doctor, including spinal manipulation, and hereby give my full consent to treatment. I intend this consent to apply to all my present and future chiropractic care.**

## OFFICE POLICY FOR HEALTH CONNECTION OF TUSTIN

**Financial Responsibility:** You are ultimately responsible for charges incurred as a result of any chiropractic evaluation, treatment or supplies provided for your care regardless of expected payment by your insurance company or third party. If you have chiropractic benefits through your private health insurance, we will verify your coverage and based upon that information notify you of your responsibility, which is never a guarantee until your insurance is billed and an EOB (explanation of benefits) is received. Insurance billing is provided for ABFCC (Amy B Friedman Chiropractic Corporation) through Priority One Billing who often utilizes online statements and payment portals sent through our practice management software, Kareo. If you have a flat co-pay, you are responsible for payment each day you receive care. Co-insurance and deductible fees that are applied by PPO insurances will be balance billed and due within thirty days of upon receipt of your email or if preferred paper/mailed statement.

- **Personal Injury Claims:** are taken upon approval and arrangements will be made on an individual basis. If you have MedPay (Medical coverage) on **your** auto policy it is customary for our office to bill that policy during the course of your care regardless if the injury is the fault of a third party. Third party cases without an attorney require the patient to pay a portion of their total bill as they receive care (see third party agreement) and the balance upon settlement of the case. If you have an attorney representing your case, a lien may be signed upon approval of the office. You are ultimately responsible for paying your balance in full immediately upon settlement from a third party.
- **Work Related Injury Cases:** are taken upon approval and require pre-authorization.
- **Massage Therapy:** All massage therapy services are provided on a fee-for-service/cash basis and require payment upon completion of that service. In order to hold a future massage appointment a credit card will be kept on file and only charged for late cancellations or missed appointments. Missed or cancelled massages less than 24-hour notice are subject to fees as determined by our massage policy, \$35 for ½ hour and \$65 for one hour.
- **Supplements and Supplies:** Any supplements or supplies must be paid upon receipt.
- All accounts over 60 days are considered overdue and subject to collections.

**Informed Consent:** By signing below, I acknowledge I have read and received the informed consent for chiropractic care and have all my questions answered regarding the safety and purpose of chiropractic manipulative treatment. I wish to rely on the doctor's experience and expertise to exercise good judgement when choosing the most safe and effective course of care based upon my history, physical exam and any radiological imaging obtained. I consent for care for the entire course of treatment for my present and future conditions.

**Authorization and Assignment:** I authorize Health Connection of Tustin to release any information and records required and appropriate for appropriate insurance authorization, billing or appeals, attorney, or referred physician. I authorize direct payment from my insurance company or attorney to my doctor for charges made for treatment rendered. This authorization and assignment are irrevocable and ongoing until all monies owed have been satisfied and paid in full. It will remain in continual effect. A photocopy shall be as valid as the original document.

I acknowledge that I have read and understand the Health Connection of Tustin office policy regarding my financial responsibility, informed consent and assignment of payment for services rendered.
